SUMMARY

I am a Software Engineer that experience of 4+ years in PHP/Laravel and a year with Golang. Passionate about simplicity and a good system. A thinker, problem solver, and mystery book reader. Currently, I'm interested in DevOps stuff, and VueJS. I am a detail person, have auto-didactic capabilities, and know how to Google a problem.

SKILLS

Golang, PHP, Laravel, WordPress, Docker, Kubernetes, PostgreSQL, RestAPI, JS, CSS G-Workspace, Jira, Linux
